

MIND YOUR BRAIN

A Journey into the Mechanics of Learning, Emotions and Brain Care for Young Minds

NEW RELEASE!! By John Joseph

A brilliant course of study for young minds. Your students' capacity to learn, their moods and attitudes towards school, their day-to-day behaviour and ultimately their academic success can be significantly boosted by learning how to learn.

In this remarkable PowerPoint-based program of at least 50 hours of lessons, John Joseph and the Focus Education Team give you the background and resources to share the secrets of learning, learning styles, emotion, behaviour and brain care with young minds. The program is adaptable from junior primary to senior secondary classes.

Each colourful PowerPoint Section reveals amazing information about the human brain and how to use that information to enhance understanding and retention. John Joseph provides you with the exact slides he uses in his presentations – over 550 PowerPoints including many animations, all unlocked so you can professionally modify and customise each slide.

The PowerPoints and associated Teachers' book includes:

- Course rationale and overview
- Objectives and intended outcomes
- Step-by Step Lesson Plans with teacher notes (312 page Teachers' Book)
- Key definitions and terminology to explain the brain
- Background reading for teachers
- Black-line masters for photocopying or digital pasting
- Digital anatomic models of skulls and brains for electronic dissections
- Step-by-step slides and movies for actual sheep brain dissections
- Neuron animations detailing what neurons are and how they work
- Brilliant, engaging animations to describe brain care
- Interactive digital games to highlight key points about the brain
- Examples of model-making and step-by-step digital instructions with graphics
- References, glossaries, manipulatives and internet resources

Topics Include:

- Section 1: Anatomy of the Brain – neuroscience for beginners
- Section 2: Neurons - tiny cells that learn
- Section 3: Information processing - understanding learning and memory
- Section 4: Learning Styles - assessing talents and strengths
- Section 5: Brain Care - grow a healthy brain
- Section 6: The Emotional Rooms – enjoying life's challenges

Price Structure:

- License 1, up to 300 students at your site: \$440
- License 2, between 301 and 500 students at your site: \$660
- License 3, over 500 students at your site: \$880

Mind Your Brain reveals research-based strategies to guide you through a remarkable study of the human brain. The 312-page teachers' book provides step-by-step notes and anecdotes for each slide. This highly engaging journey of discovery is fun, educative and designed to boost the motivation and confidence of young people as they develop as learners. You'll have access to the most professional site-licenced PowerPoints available.
